Suited for all embroidery types

High speed with high efficiency

HIGH DEF TRUE COLOR 10.4" LCD

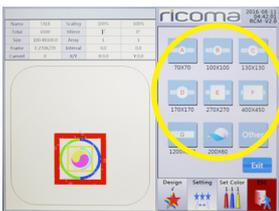

Technical specifications

Main features

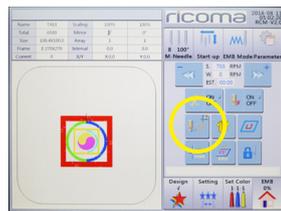

- Double beam design to reinforce machine stability and reduce vibration
- Double belt system allows for higher torque, less noise and easier maintenance
- Reinforced square guide rails allow for higher impact resistance and durability
- Leveling feet pre-mounted in the factory for easy transportation and installation
- Double lighting system for better visibility
- Suitable for embroidery on flats, caps, finished garments and more
- Perfect for established and growing embroidery businesses
- 10.4-inch HD LCD touch-screen panel
- Maximum embroidery area: 400 mm x 450 mm [16" x 18"]
- Optional wide model with embroidery area of 500 mm x 450 mm [20" x 18"]
- Newly developed small sewing arm for high-quality embroidery on caps and small items
- Heavy duty steel stand with wheels to ensure stability and mobility
- Maximum speed: 1,000 stitches per minute
- Memory capacity: 50 million stitches or 200 designs
- 270° wide angle cap system
- Environmentally friendly packaging
- USB input
- Servo motor 150 W – lowest power consumption in the industry!
- Built-in universal power supply 110V/60Hz and 200V/50Hz (self-adaptable worldwide)
- DC36V micro-step motor for X & Y axis driving to ensure low noise and less vibration
- Emergency stop button
- Automatic thread trimmer
- Thread break detection
- Easily apply appliqué, sequin, boring or cording
- Recessed USB port to protect USB flash drive
- Machine reads multiple design formats, such as DST, DSB and more
- New embroidery frame positioning board makes changing embroidery frames easier
- Slim machine width allows for easy entry through standard sized doors
- Multiple hoop sizes for a variety of embroidery needs
- Automatic memory retention
- Optional laser tracing device available

User-friendly interface allows user to complete more projects faster

The intuitive High Definition True Color 10.4" LCD displays a clean interface with easy one-step commands for simple operation and a pleasant user experience.

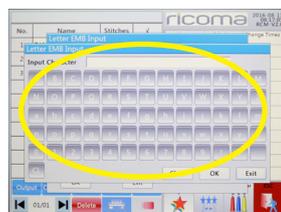

Preset hoops

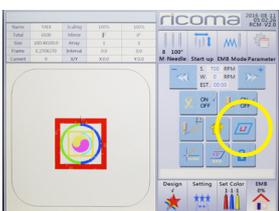

One-step appliqué

Easy color selection

On-board lettering

One-step tracing

Easy design selection

- User-friendly interface
- Easy to operate
- New ergonomic touch screen allows for easy and comfortable operation with right-hand thumb
- Preset hoop parameters designed to avoid hitting hoops
- Multi-angle, rotatable and adjustable control panel bracket allows for better visibility
- Pre-sew design trace capable
- Automatic color change
- Built-in button from 172° to 196° under manual color change mode, a great help for machine maintenance
- Frame offset and frame outlining available for easy appliqué embroidery
- One-step tracing key directly on the main screen
- External 100° button and trimming button
- Multiple languages: English, Chinese, Spanish, Portuguese, Turkish, Dutch, French, German, Russian, Vietnamese, Thai, Arabic and more

OPTIONAL ADD-ONS

Broaden your possibilities with these affordable and easy-to-use add-ons!

These attachments make hooping and adding embroidery effects a breeze. Embellish your designs with sequins, boring or cording; or use specialty hoops for all embroidery needs.

Sequin device

Attach the optional sequin device to your embroidery machine for a pop of sparkle to your embroidery and a quick and easy fill.

Boring device

This device punctures holes into embroidered designs and encloses the raw edges with stitches to create a beautiful effect within minutes.

Cording device

Easily create an embroidery effect with the cording device, which lays cord on fabric and attaches the cord with transparent zigzag stitches.

8-in-1 device

Designed for non-hoopable, difficult items such as shirt pockets, socks, backs of caps, shirt sleeves, collar tips and more.

Robot frame

Embroider on difficult-to-embroider and unusually shaped items such as bags, pockets, shoes and purses with the robot frame.

Belt hoop

With an 8-inch x 4-inch embroidery area, the belt hoop allows ample room for embroidery on belts and straps.

Mighty hoop

With a wide variety of hoop sizes to choose from, these magnetic hoops make hooping all types of differently sized garments a breeze.

Camera positioning device

Aids in correcting position and direction of designs in the case of improperly hooped items to ensure a precise embroidery outcome.

Laser device

With this easy-to-install tracing tool, there's no more hitting hoops – just simply watch the laser pointer trace the design in seconds.

SCALE YOUR PRODUCTION

Startups can ramp up their businesses with the CHT2 four-head and six-head...

CHT2 6-HEAD

The CHT2 series is available with both 12 and 15 needles.

CHT2 12-HEAD

AVAILABLE IN UP TO 12 HEADS!

while established businesses can scale their production with the CHT2 eight-head and twelve-head.

CHT2 8-HEAD
